

We are seeking qualified and committed team members to join our efforts in providing the quality care to meet the needs of those who depend on us.

Experience in LTC is helpful, but not required, but you do need to have a heart to serve others by caring for your residents the way you'd care for the needs of your own family. We can teach skills, but not compassion, we can provide training, but not the desire to care for those in need. If you enjoy working with the senior population and treat residents with respect, dignity, and kindness, consider applying at Southern Oaks Care Center. We would love to meet you!

Sign On Bonus for Full Time Employment
